

# Taxpayer Perspective

## TGCCCC Leverages Taxpayer Dollars

- An estimated 96% of TGCCCC students remain in Texas and contribute to economic growth. Students who enter the workforce expand the tax base by generating higher earnings and reducing social costs.
- Higher student earnings and associated increases in property income generate about \$95 million in added tax revenue each year.
- State and local governments will save approximately \$4.2 million in avoided social costs each year, including savings associated with improved health, lower costs of law enforcement, and fewer welfare claimants.

## TGCCCC Generates a Return on Public Investment

*Long-term Return to State and Local Taxpayers on Their TGCCCC Investment*

- State and local governments allocated about \$530.6 million in support of TGCCCC in FY 2008-09.
- For every dollar appropriated by state and local governments to TGCCCC, taxpayers will see a return with a cumulative added value of \$2.20 in the form of higher tax revenues and avoided social costs.
- State and local governments will receive a rate of return of 7.6% on their investments in TGCCCC.
